Social Distancing Behaviour Code

Last Reviewed: September 2020
Next review Due: September 2021

Approved by: Board of Trustees

‘Keeping Everyone Safe’

- Emphasis and a high expectation will be placed on the use of our school values to inform all interactions and relationships between children and staff
- As a community we respect and celebrate the diversity and cultures of all members of our school and demonstrate that in everything that we do
- This behaviour code should be read in conjunction with Kingfisher’s Behaviour Policy

Arriving and leaving school

- Children and parents will demonstrate agreed social distancing protocols when arriving and leaving the school site
- Children and parents will arrive at school in the morning within their allocated time slot to support social distancing measures
- Every morning children will have their temperature taken before entering the school site
- At the end of the school day parents will arrive within the allocated time slot and wait for their child observing social distancing measures
- Pupils will be released via the school gates when the staff member has seen the parent. Staff will support pupils to observe social distancing as they leave

Keeping safe in the classroom

- Children and adults will wash their hands when they enter and before they leave the classroom. This will include before and after lunch and at the end of the school day
- Children and adults will follow the ‘Catch it, Bin it, Kill it’ approach to coughs and sneezes
- Children and adults will help each other to remember about safe hygiene including not touching their face
- Children will inform the adults in their classroom if they start to feel unwell

Using equipment and resources

- Children and adults will demonstrate careful consideration when using resources keeping and looking after their own, pencil, pen, ruler, rubber, sharpener so that it is only used by them
- Hubs will be allocated their own play equipment for break times
- Children and adults will demonstrate careful consideration when using playground equipment looking after and only using their own

Moving around school

- Children and adults will move around the school safely following social distancing measures – keeping two meters apart, not touching/interacting or socialising outside of their allocated social group, moving aside and waiting for others to pass in corridors that require this or on the stairs
- Pupils will remain within their allocated learning and play areas during the school day and will avoid interacting or socialising outside of their allocated social group

Lunch time and break times

- Break and lunch times are staggered to reduce contact between hubs. Children will remain in their specified areas for both break and lunch times
- Year 3 and 4 will be supported by staff to collect their lunches. Years 3, 4, 5 and 6 will collect their lunches from the hall at their allocated time and eat in their classrooms.
- Reception and Years 1 and 2 will have a staggered lunchtime and specific area to eat socially distant in the hall.

Positive reinforcement

In order to support pupils to adjust and adapt to our new social distancing behaviour code children will be rewarded daily for making great social distancing choices through our class diamond system. Pupils who get to the ‘Top of the Diamond’ every day will receive a certificate from their class teacher.

Pupils will also be rewarded through the Diamond system for other achievements during the school day

Every Friday there will be a celebration assembly led by Ms Gascoigne where children will be recognised for their learning and amazing achievements and will receive certificates. This assembly will be recorded and posted on YouTube. Pupils will watch it from their classrooms and will also be able to watch it at home with their parents. Any child mentioned in our celebration assembly will receive a special certificate on a Monday

In the unlikely event that a child refuses to follow our ‘Keeping Everyone Safe’ measures they would be provided with reminders and opportunities to make the right choice. If however a child continues to refuse, thereby putting others at risk, then a member of the senior leadership team will be informed. If the child refuses to respond to the senior leader then parents will be contacted to discuss and implement appropriate next steps that will ensure the safety of all children across the school as well as within the hub.

If there are other instances of our school values not being upheld then pupils may move down the Diamond during the school day.

The safety of the children and the staff is paramount in all situations. In light of new guidelines our Exclusion policy has been amended to include children who deliberately cough or spit at pupils or staff putting them at risk.
